EDUCATION

SRM Institute of Science and Technology <i>Bachelor of Technology in Computer Science (AIML) CGPA: 8.56/10</i> Coursework: DSA, Data Analysis, DBMS, OS, Software Engineering	Chennai, IN Sep 2021 – Jun 2025
Telangana State Borad of Intermediate Education (TSBIE) <i>Intermediate Percentage: 95.60%</i>	Hyderabad, IN Apr 2020 – Apr 2021

EXPERIENCE

Standard Chartered GBS Technology Apprentice <i>Hybrid</i>	Jul 2025 – Present
- Designed and automated scalable ETL data pipelines using Python, improving workflow reliability and performance. - Processed large-scale datasets and executed machine learning experiments on Databricks (Apache Spark) for faster model iteration. - Built, trained, and deployed machine learning models for predictive analytics, optimizing accuracy and scalability. - Implemented cloud-based data solutions on Microsoft Azure (Azure Data Factory, Azure Databricks) for end-to-end pipeline orchestration. - Developed agentic AI systems using LangGraph, enabling automated decision-making and real-time monitoring.	

PROJECTS

2021 Tokyo Olympic Data <i>Azure, Data factory, Data Bricks, Data Lakes, Synapse</i>	Mar 2025 – Apr 2025
Built an ETL pipeline for Tokyo Olympics data using Azure Data Factory; performed data cleaning with Databricks and stored the processed data in Azure Storage Accounts.	
Data Processing and Visualization Pipeline <i>AWS, Kinesis, Glue, Quicksight</i>	Jan 2025 – Feb 2025
Developed a real-time data pipeline using AWS Kinesis for data streaming, AWS Glue for ETL processing, and Amazon Quicksight for interactive data visualization and insights.	
2024 Election Data Analysis <i>Web Scraping, Data Cleaning, Power BI, Excel</i>	May 2024 – Jun 2024
Developed an interactive dashboard using web scraping to gather and visualize election data in Power BI.	

TECHNICAL SKILLS

Languages:	Python, C++, SQL
Frameworks/Libraries:	PySpark, Scikit-learn, Pandas, NumPy, LangGraph
Cloud & Big Data:	Microsoft Azure, Azure Databricks, Azure Data Factory, Apache Spark
Machine Learning:	Model Training, Model Evaluation, Predictive Modeling, Experimentation
Developer Tools:	Git, GitHub, VS Code, GitHub Copilot, Databricks Workspace, Postman API

CERTIFICATIONS

AWS Certified Cloud Practitioner	Jun 2025
Microsoft Certified: Azure AI Fundamental	Jun 2024
Microsoft Certified: Azure Data Fundamental	Dec 2024
GitHub Foundations	Apr 2025
Postman API Fundamentals Student Expert	Nov 2024

ACCOMPLISHMENTS

Standard Chartered Hackathon Finalist: Ranked among the top 16 teams out of 600 teams. Techknow-2021 Project Expo: Secured first place and was awarded the gold medal. SRM Merit Scholarship: Achieved an impressive rank of 200 in the SRMJEE examination.
